**DETAILED ACTION**  
***Election/Restrictions***

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-5, drawn to a water product.

Group II, claim(s) 6-37, drawn to a method and apparatus for producing water.

The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the technical feature linking the groups, a water containing 0.08-0.5mg/L of nitrate and/or sulfate ions and substantially no chlorine, is not a single general inventive concept and thus is not a special technical feature as a water containing 0.08-0.5mg/L of nitrate and/or sulfate ions was known as shown by Shunzo et al (JP 62-014777 abstract only) and as it would have been obvious for the water to contain substantially no chlorine as the reactions of chlorine in water was known to be toxic to the human body as admitted by applicant (Description of Related Art, page 2) and as chlorine was known to cause an off taste and odor.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to KELLY BEKKER whose telephone number is (571)272-2739. The examiner can normally be reached on Monday through Friday 8am-4:30pm.
